— Tarthang Tulku

Opening Lecture by Helena Gold:

'A Journey of Transformation'

The Dharma shows us a 'journey of transformation'. Serious study of Dharma begins with a wish to enter the path that transforms suffering into natural, creative, joyful potential. Any progress in that direction is worth our effort, but there is an important condition from the outset: to acknowledge that whatever progress we make during our journey comes entirely through deepening our understanding of body, language and mind, and taking responsibility for our own freedom.

How do we prepare for this 'transformative journey'? What training and knowledge do we need? What are the challenges and major turning points? We invite you to explore these questions and more, inspired by the wisdom of the Dharma.
